

GM Drone Racing Start of Season Checklist

Onboarding and Pre-Season Prep

Use this Resource: [Drone Racing Season Information and Common Questions](#)

- I have been onboarded to the Fenworks Platform and am set as a manager of my school page
- I have read the **Season Information, General Rules, and League Structures** sections and have reviewed the rules for each drone racing league and format
- I have watched all the resource videos found on the Common Questions page, and I understand what my students must do on game day

Registration Checklist

Use this guide and video: [Fenworks Platform Set-up and Registration Guide – PDF or Video](#)

- Invite your students to the Fenworks platform
 - Confirm that your signed-up students have successfully registered on the platform.
- Add your players as members to your school page and create rosters
 - Assign team captains
- Register rosters to their respective leagues. You can do so by clicking the “Season Selection” button on the team page and then selecting the correct season
- Support students as they learn how to use the Fenworks platform
 - Make sure students have read and reviewed the Student Checklist found here <https://fenworks.com/drone-racing-common-questions/>

Networking Testing

Use this guide: [Networking Guide](#)

- Check with my school’s IT to ensure the Fenworks email domain (@fenworks.com) is unblocked
- Test that the simulator, VelociDrone, can be downloaded and played online and that the other supplemental programs, Betaflight, YouTube, Fenworks Platform, and Fenworks Website, all work.
