**How to Buy VelociDrone**

Step 1: Create Email Accounts
 a. To use VelociDrone, you must assign an email for each license. Fenworks recommends purchasing at least 4 VelociDrone licenses, so you should create four or more new email addresses to link each account. They could be as simple as the following (Ex. **FenworksDrones1@fenworks.com**). Another alternative to this is to create one email and add a bunch of aliases to it. Please consult an IT department or Fenworks for more information about this.
  i. Schoolnamedrones1@k12.nd.us
  ii. Schoolnamedrones2@k12.nd.us
  iii. Schoolnamedrones3@k12.nd.us
  iv. Schoolnamedrones4@k12.nd.us
 b. We recommend you **DO NOT** use existing email addresses or student email addresses as the account will be linked to their email. Make sure to save your login information and get access to these new accounts. You might need to get your school's IT department involved.
  a. Once you have the emails, move to step 2.

Step 2: Create VelociDrone Accounts
 a. To purchase Velocidrone accounts, you must first create one. Go to https://www.velocidrone.com/register and create an account.
 b. Start filling out the registration form.
  i. Enter a Full Name: We recommend doing whatever the school is comfortable with (if it's the principal's name, the GM's name, or whoever they want to choose). You can use the same name for multiple accounts.
  ii. Fill out the email address to which you want to link this account (use one of the ones created in Step 1).
  iii. Create a Password. Remember that you might give students access to these accounts, so maybe make it something like SchoolNameDronesNumbers (ex. FenworksDrones1.)
  iv. Create a Unique Player Name/Tag: Reminder that this is for all students who use this account. We encourage you to leave it vague, as multiple students may use the same account. For example, your Player Name could be SchoolName1, Schoolname2, etc.
  v. Then, enter your year of birth or anything that confirms you are over the age of 13.
 c. Once you have registered the account, move to step 3.

Please register to create a VelociDrone account.

You will require an account to purchase VelociDrone and also for the simulator to store data for you - like track times, purchased premium content packs as well as providing a secure download area for your purchases and options to update your account profile information.

Step 3: Buy VelociDrone Licenses

a. Go to https://www.velocidrone.com/shop
b. Scroll down and add **ONE** VelociDrone License (£16.99) to your cart. (See below image). **Ensure you only have one license, as it links to the account you will log in to soon.**
c. It will take you to the Checkout page. Click "Continue Shopping"
d. Scroll down and add **ONE** Micro Class Quads (£4.00) to your cart. This Premium Content will add micro quads to your license. This is required to fly the Tiny Hawk in the game. (See below image).

e. Your cart should now look like the image below and have the VelociDrone License and the Micro Class Quads at **ONE** quantity each for a total of £20.99 (Roughly $25 USD). Click "Process Payment"

f. Once you verify that the cart looks correct, click Process Payment in the bottom right. It will bring you to a login page. Log in using an account from Step 2. **Make sure to only use one account per purchase.** Once logged in, return to the shopping cart icon in the top navigation bar. You will see two options at the bottom right: "Pay with Strip" or "Pay with PayPal." Choose the option you would like to proceed with. *Note: Strip is for Credit Cards.

Shopping Cart

Prices here in the checkout page are shown in British pounds. If you click the Stripe payment button those prices will be converted to US dollars or Euros at checkout if you are in the USA or a Euro Zone country. Payments through PayPal are always shown in in British pounds.

License Name	Quantity	Discount	Price
VelociDrone License	1	£0.00	£16.99
Total			£16.99

CLEAR CART

CONTINUE SHOPPING

PAY WITH STRIPE   PAY WITH PAYPAL

g.   Enter the following information to pay
   i.   Email you wish to send the receipt (Might be different than the one you are using for the drone account)
   ii.   Card Info
   iii.   Name on Card
   iv.   Billing Address
   v.   Then hit "Pay."
h.   Congrats! The licenses have been purchased.

Step 4: Repeat Steps 2 and 3 until you reach the desired number of licenses.
   a.   Do this with each of the accounts

How to Download VelociDrone

Step 1: Log in to your VelociDrone Account

a. Go to https://www.velocidrone.com/account/my_licenses. If you are already logged in, you should be able to see the below screen. If you were not already logged in, it will bring you to a login screen. Log in, click the above link again, or click on your name in the top right, then click "my licenses."

   1. Your Licenses
- This lists what computer the license is assigned to at that current moment. Licenses are automatically assigned whenever the account linked to is signed into Velocidrone. You don't ever have to Unassign a license; you can just log into another account to swap the account linked to a computer.

   2. VelociDrone Installer Downloads
- Please download the Installer Client for your computer. Most people will do the Windows Client, Mac OSX Intel, or Mac OSX M1/M2 Client. If you are unsure which one to download, please contact your school's IT department or Fenworks for assistance.
   3. Your Preimium Content
- The premium content does not require an additional download. Once the license is installed on a computer and connected to the internet, it will automatically be available.

b. Once you have selected the best client for your computer's operating system, wait for the download to finish and move on to step 2 for Windows or Step 2 for Mac.

**Step 2: Follow these steps if you are a Windows User (See next page for Mac Users)**

   a. Wait for the Zip file to download. It should have a name like (velocidrone.zip). Once it downloads, double-click it and open the file. Click on Launcher
   b. Click Extract All
   c. Please save it to your Documents, Desktop, or wherever your IT person wants you to save it. (you might need to click "Browse." Then click Documents or Desktop). Then click "Extract."

   d. It should now take you to the location where you saved it. Click "Launcher" again. Once you do that, a status bar should appear and the software will begin downloading and once downloaded, should be good to run!

Step 2: Follow these steps if you are a Mac User

a. Wait for the Zip file to download. It should have a name like (velocidrone.zip). Once it downloads, double-click it and open the new file. Then click on launcher.app

b. Once you click it, you will likely get a message that looks like the image to the right. Don't click "move to trash."

c. Instead, click the apple logo in the top left of your computer and click "system settings". Then Click on Prvacy and Security. Scroll down to find the "Security" box. Change the option to "App Store and identified developers" and then click "Open Anyways" in the bottom right.

d. You will now be shown a new notification asking if you want to launch it still. Clikc "Open." It will require an admin password to allow this but once the password is entered, the launcher should start.

e. Once you do that, a status bar should appear and the software will begin downloading and once downloaded, should be good to run! This will only happen the first time the game is downloaded.

f. Use the launcher to open the game after the intial installation is finished.
