**WHO'S  
RACING?**

**192**  
STUDENTS

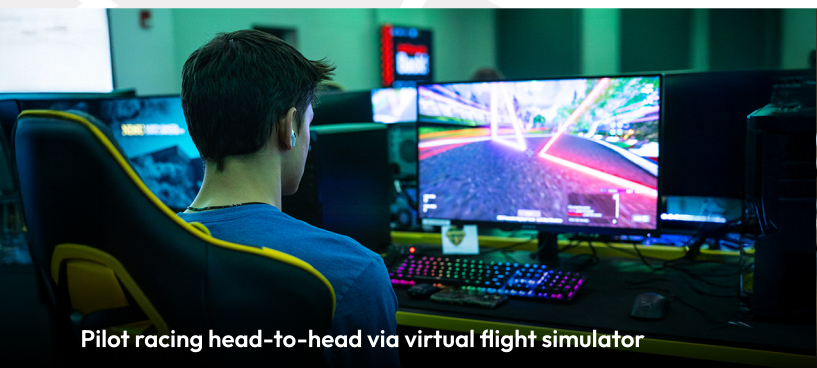

**24**  
SCHOOLS

**3 STATES**  
ND, SD, & MN

2024 - 2025 data\*

## HOW *IT* WORKS

Drone racing gives you the chance to fly in virtual simulators and with real drones, competing solo or with friends in weekly races, time trials, and combat modes, all leading up to the **Regional Championship at the end of the season.**

Pilot racing head-to-head via virtual flight simulator

Pilot flying a drone in with first-person view (FPV) goggles

## THE HIGHLIGHTS

**Different Ways To Fly** | Train with the TinyHawk III+ for first-person view (FPV) racing or compete virtually through drone flight simulators.

**Big Stage Moments** | The season wraps up with a live, in-person championship event to crown the region's top racers.

**Improve Your Skills** | Build precision flying, quick reactions, and problem-solving abilities every time you race.

**No Experience Needed** | Start from scratch with simulators and durable racing drones designed for new pilots.

**Scholarship Access** | More than 100 colleges across the U.S. offer scholarships connected to the UAS industry (Federal Aviation Administration)
